INSTRUCTIONS

1) First make sure the surface of the ornament is clean and dry.
Pour some white paint onto your palette or similar. Add just a little paint onto a small corner of the sea sponge. Next, lightly dab the paint onto the ornament, creating a rounded half circle near the bottom for the snowman's body.

2) Next, dab paint a smaller circle above for the snowman's head. Let dry.

3) Paint the face - Use the end of the paintbrush to make dip dot eyes with the black paint. Let dry. Add a tiny dot of white on each eye for a highlight. Let dry.

INSTRUCTIONS (Continued)

4) For the carrot nose – use the orange paint to make a rounded, long triangle below the eyes.
For the mouth – use less black paint on the end of the brush and make five smaller dip dots in a half circle below the nose. Let dry.

5) Add arms by painting thin brown branch-like lines coming out from the body. Let dry.

6) You can make different facial expressions:
If you want the snowman looking to the sky, just paint the carrot nose on top of the head and add the mouth below.
Or, to make your snowman face sideways, paint just one eye, add the nose on the side of the head and paint half a smile to make the snowman face sideways.

7) For a finishing touch, pour in some glitter snow and tie a bow around the ornament cap.
