- Micron Pen #01 Black #77414748
- Colored Pencils #30046587
- 1/8" Hole Punch #77178541
- 12" of 3/8" Sheer ribbon or similar for hanger
- Scissors

Optional:

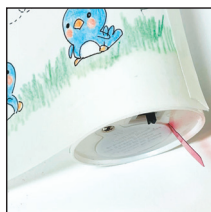

- Stamp Set and Stazon Black ink pad
- Washi Tape

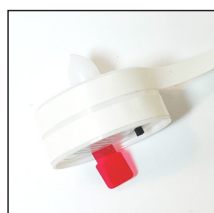

INSTRUCTIONS

1. Stamp and/or draw onto the vellum.

2. Color the vellum on the backside of your stamping or drawing.

3. Wrap double stick tape around the base of the battery-operated tea light candle.

4. Add a strip of tape to one edge of the vellum so that you can overlap and create a tube.

5. Carefully wrap the decorated vellum around the base of the tea light candle. Make sure the colored side is on the inside.

Overlap the ends and tape together.

6. Punch a hole on opposite sides of the vellum, about 3/8" down from the top edge.

Optional: You can add a strip of washi tape around the top of the vellum before making the holes to add reinforcement.

7. Thread the ends of the ribbon from the inside going out from each hole. Adjust the length of the hanger. Knot the ends on each side. Trim the excess ribbon.

8. Pull out the battery protector strip at the bottom. Switch on the tea light candle and hang to display.
