To store any unused Hearty clay - First, push any air out of the clay packaging, tape package opening closed and/or wrap in clear food wrap before putting in an airtight container.

the

INSTRUCTIONS

1. Using the Hearty Clay Color Scale tool. Measure out:
“E” portion of Green Hearty Clay
“G” portion of White Hearty Clay
“G” portion of Yellow Hearty Clay

NOTE: You can also use white clay for all the pieces and paint them with acrylic paint.

3. Measure out two “G” portions from the bright green you just made. Roll each into a ball for the peas.

5. Take an “H” portion of Green Hearty Clay and roll into a ball then flatten into a large leaf shape about 2-1/2 in. long.

2. Mix all three clay colors together until you get a nice bright green.

4. Use the end of a bamboo skewer or the Color Scale Pick to make two small indentations on each pea for the eyes.

Optional: You can add in small black seed beads or dip dot black acrylic paint to make the eyes stand out more. Let dry.

6. Place the two peas in the center of the leaf/pod. Use a little Tacky Glue if needed to hold the peas in place.

INSTRUCTIONS (continued)

7. Bring up the edges of the leaf and wrap around the peas, shaping it into the pod. Pinch the two ends to hold close. You can add curly vines to the pod as well by curling skinny long logs of clay. Let clay dry.
Optional: Brush a coat of clear acrylic varnish over the piece and let dry.

8. There are many ways to use your finished pea pod. You can decorate a frame, a trinket box or add a magnet on the back, etc.
