

## PUMPKIN HOOP DECOR

### SUPPLIES & TOOLS

- 6-inch Wood Embroidery Hoop #77614115
- Orange Felt #30061435
- Pirate Green Felt #77677005
- Black Felt #77676643
- 2 qty. - 25mm Moving Eyes #30236010
- 3 qty. - Green Chenille Stem #77858993
- Pen, Pencil or similar for curling the chenille stems
- Scissors
- Low temp Glue Gun & Glue Sticks or Tacky Glue #1360916

### INSTRUCTIONS

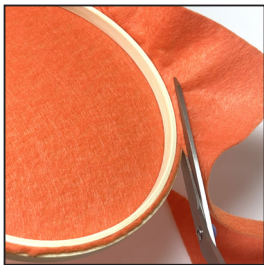

1. Separate the wood embroidery hoop pieces.

Cover the inner hoop with the orange felt. Place the outer hoop back over the inner hoop with felt. Tighten hoop and stretch the felt so it is taut in the hoop.

4. Take the chenille stems and curl around the pen or similar. Take each stems stretch out. Wrap and twist around the top screw to create vines.

Make a loop with one at the top of the screw to use as a hanger.

2. Turn the hoop over and trim off the excess felt, cutting close to the hoop edge.

5. Take the green felt and freehand cut out some leaves in different sizes. Glue to the top of the pumpkin between the chenille "vines".

You can also glue some along the bottom of the pumpkin.

3. Place the hoop in front of you with the screw at the top.

Place the moving eyes on the felt and glue in place.

Cut a small triangle from the black felt and glue below the eyes for a nose.

For the mouth, cut a zig zag curved line from the black felt. Glue below the nose.

6. You can hang your pumpkin décor up on a wall, in a office cubicle or add it to a wreath.
