

ORIGAMI GIFT CARD ENVELOPE

SUPPLIES & TOOLS

- 6 in. x 6 in. Paper*

NOTE: For a standard gift card, a 6-in. x 6-in. piece of paper is needed. You can change the size of the finished envelope by changing the size of the paper.
Also note that using cardstock will be a little harder to fold due to the thickness so using a paper creaser is helpful.

INSTRUCTIONS

1. Fold the 6-in. x 6-in. paper in half, but **DO NOT CREASE**. Instead, just pinch fold at the sides to leave a mark. Unfold.

2. Fold the bottom edge of the paper up to those center pinch marks. Again, just pinch the edges to leave a mark. Unfold.

3. Fold the bottom edge up to the new pinch marks. Fold all the way across and crease well.

4. Now fold up the bottom edge to the center pinch marks. Crease well.

5. Fold the top edge down to the pinch marks near the bottom edge. Crease well. Unfold.

6. Fold the bottom corners in, creating triangles.

7. Fold each side in along the base of the triangle fold. Crease well.

8. Fold the top corners into the center forming a point at the top and aligning the bottom with the crease line.

9. Insert your gift card or other small flat gift.

10. To close the envelope, tuck the point in to the bottom pocket.

11. Leave as is or you can add a sticker or wax seal at the closure.
