DOES MY PHOTO FIT?

SIZE GUIDE

PHOTO PRINTS
minimum photo size
5 in. x 7 in.

-OR-

DIGITAL FILES
recommended file size
2 MB or Higher

Smaller files may be submitted, but we are unable to guarantee the quality/clarity of the final print.

Does your photo orientation match your selected layout?

When selecting the layout, the orientation of your photo will determine the fitment into the frame. A vertical or portrait layout will better fit a taller style frame, while a landscape or horizontal layout will fit a shorter and wider frame.

Is your photo cropped?

If a photo is cropped (trimmed) close to or around the subject, the photo may not fill the entire space of the frame.

How is your photo quality?

- Does your photo appear fuzzy or unclear?
- Is the color of your photo/subject appear unnatural or tinted?
- Does your photo look washed out, too dark, too bright, or heavy shadows?
- Was your photo printed at home or photocopied?

If you have answered YES to any of these questions, you may want to consider submitting a replacement or larger printed photo, for best results.
