

## Mother's Day Paperweight

### Supplies and Tools:

- 1 qty. Glass Dome Paper weight #30096507
- 1 qty. 3" x 3" White cardstock for image
- Stamp images of your choice
- Black Ink Pad for stamping #30103498
- Markers, Colored pencils to color image
- Collage Pauge- Glossy #30090339
- Pencil
- Sharp Scissors
- 1" foam brush #10109
- Optional: Adhesive Laminate sheet #90869

### Instructions:

Pre-test : On a scratch piece of cardstock, color with whatever you plan to use to color the stamped image (markers, pencils, etc.). Let dry.

Stamp your image onto the white cardstock. Color in the image using markers, colored pencils, etc. Let dry. Center the paperweight over the image and use a pencil to trace around the edge. Cut out circle.

On the test scrap piece of cardstock, brush on Collage Pauge and see how the medium reacts. If the image runs, you will want to seal the colored image with the adhesive laminate before applying to the bottom of the paper weight.

If the test piece does not run, you can apply the collage paugue directly over the image and attach to the flat bottom of the paperweight. Let dry. Trim off excess edges around paperweight.
