STAND UP POCKET GIFT CARD HOLDER

Fold over at the 5 1/2" line. With the double thickness of sections B & C, place the folded edge onto the WeR Envelope Punch. Line up the left edge at the 3 1/2" mark and punch. Flip the cardstock over and repeat.

Place the folded edge onto the paper trimmer and line up the wire between the two cuts. Cut straight across to remove the middle section, creating an opening. This will be where the gift card will slip in and out of.

Tape sections B & C together, taping the three remaining sides; tape close to the edge to create the gift card pocket.
(Fig. 2)

Line up the 1" strip along the bottom of section B and tape down. Center the 1/2" strip on top of this strip and tape down.

Round the corners on the 1" section E.

On the outside of section A, center and tape down the 2 3/4" x 4 1/4" printed paper.

Fold gift card holder closed with Flap E folding over A.

Punch out a 1" circle and 3/4" circle from coordinating cardstocks. Center and tape the smaller circle onto the 1" circle. Take the layered circle and place on section A but half over flap E. Attach with a Pop Up Foam dot for the closure.

Open up and slip gift card into the pocket. Close by slipping flap under the edge of the 1" circle.
